## Legislative Report: State Contracting with Businesses Owned by Qualified Service-Disabled Veterans, FY2014

---

The Management and Budget Act (1984 PA 431, as amended) establishes (i) a goal for the department to award each year not less than 5% of its total expenditures for construction, goods, and services to service-disabled veteran-owned businesses (SDVOBs), and (ii) a price preference of up to 10% of the amount of the contract for qualified SDVOBs) when competing for state contracts.

This report illustrates the department's progress toward achieving the 5% goal and presents several data points and trends which show the progress made toward the goal.

The aggregate value of contracts awarded to SDVOBs as a percentage of expenditures for construction, goods, and services was **2% in FY 2014, up from 1.53% in FY 2013.**

The aggregate value of contract awards totaled **\$64,641,923.04** in FY 2014. This represents the second best result since the act was implemented.

Total annual spend as a result of aggregate awards has grown from **\$1.1 Million in 2007 to over \$58.1 million in 2014**, the highest recorded since the law was passed.

The number of contracts awarded to SDVOBs has stabilized at 365 compared to 370 in 2013. The number of bidders is down slightly from 82 in FY13 to 73 in FY 2014.

SDVOBs continue to win a large percentage of project awards for which they bid.

This report illustrates the significant progress which has been achieved in recent years, and the Department of Technology, Management & Budget recommends that outreach efforts to the service-disabled veteran-owned business community continue.
